

Creation – Day 4 (Part 1)
Genesis 1:14-19

Series: The Glory of God in Creation

Light travels at the rate of _____ miles per second. In one year that light beam will travel Six Trillion Miles.

In the Milky Way Galaxy, a light beam would have to travel Fifty thousand years just to get to the _____ of the Milky Way.

Evolution is not possible. Any kind of spontaneous generation, any kind of upward complexity from simplicity is by chance _____.

Creation Day 4

There is a _____ on the days of Creation. Day 1 God creates light, on Day 4 he attaches the Sun, Moon and Stars to the light.

It is very important to remember that the flow of Creation – all of it – is introduced by the phrase: “*And God said...*” It is the _____ of Creation. *Psalms 33:6-9*

v.14 “*Let there be lights...*” _____

On Day 4 – God _____ the light to the Luminaries.

The Stars and the Sun are not the Creators of light, _____ is.

Quote

“The only difference is this, that the light was before dispersed but now proceeds from lucid bodies which in serving this purpose obeyed the command of God.” John Calvin

“O LORD, our Lord, how majestic is your name in all the earth! You have set your glory above the heavens. (v.3) When I look at your heavens, the work of your fingers, the moon, the stars, which you have set in place, what is man that you are mindful of him, and the son of man that you care for him?”
Psalms 8:1-3
